Problem 1: The CYK Algorithm (10 points)

Consider the following context-free grammar.

$$S \rightarrow AB \mid BC$$

$$A \rightarrow CB \mid a$$

$$B \rightarrow AC \mid b$$

$$C \rightarrow AB \mid a$$

Now run the CYK algorithm to decide whether the string **babba** can be derived in the grammar above. You must fill in the entire CYK table below.

1, 5				
1, 4	2, 5			
1, 3	2, 4	3, 5		
1, 2	2, 3	3, 4	4, 5	
1, 1	2, 2	3, 3	4, 4	5, 5
