## Problem 1: The CYK Algorithm (10 points)

Consider the following context-free grammar.

$$S \to AB \mid BC$$

$$A o CB \mid$$
 a

$$B \to AC \mid \mathbf{b}$$

$$C o AB \mid \mathtt{a}$$

Now run the CYK algorithm to decide whether the string babbb can be derived in the grammar above. You must fill in the entire CYK table below.

1,5				
1,4	2, 5			
1,3	2,4	3,5		
1,2	2, 3	3, 4	4,5	
1,1	2, 2	3, 3	4,4	5, 5
